

Randy Travis, Messin' With My Mind

I said one thing i'd never do was care or hang around for too long anywhere I could always move ahead with nothing left behind then you started messin with my mind This town was just another place to play have some fun then be on my way you were just another way for me pass some time then you started messin with my mind CHORUS I cant believe how much my mind has changed or the way my life's been rearranged I swore one thing I'd never do was be to stay inclined then you started messin with my mind The first in line for party time was me always the last to leave or try to be I never thought I'd wanna change I suited me just fine then you started messin with my mind CHORUS
