

# Randy Travis, This Is Me

This is Me By Randy Travis

Lately I get the feeling there's a feeling that your holding in  
Why do you keep your distance as close as we've been  
Do you think your silence is saying there aint nothin wrong with you  
This is me your not talkin to

CHORUS

This is me

The one that knows you inside out

The one you've leaned on till now

Don't you know I'm still here for you

So what do you think your doing

Who do you think your fooling

This is me your not talking to

You can run to me no matter what your running from

If its something I am doing I will get it undone

Just dont let me be a stranger to what your going through

Hey this is me your not talking to

This is me

The one who knows you inside out

The one you've leaned on till now

Don't you know I'm still here for you

So what do you think your doing

Who do you think your fooling

This is me, your not talking to

Hey this is me.....you're not talking to.
