Raphael Saadiq, Still Ray

I'm comin' home to you, wear something see-through So I can see your heart For night can never come soon enough for me I watch the sky all day

Night is where I find you and peace of mind My days are filled with grief That's why I truly give you what you need Because you love me for me

Good runs all through you, I can't help myself You found my weakest spot What better woman to breathe and sit next to That's why I'll always be with you

Yes, I'm funny like a clown, but I'm never down As long as you're around There will never be a normal way for me Cause you are shinin' beneath me

You'll never have to beg me to come to bed I'll walk you there each night If you want me to that's what I will do That's why I'll always be with you
