

# Rare Bird, Peace Of Mind

Always standing there in the morning sun  
The silent questions turn my eyes  
By the light in the distance  
And from cloudy skies  
You're waiting for someone who gives advice  
Yeah you're waiting for the man who tells no lies

You will find peace of mind  
Like you never felt before  
That you thought you left behind  
You will find peace of mind  
That will open up the door  
That was always closed before  
Peace of Mind, Peace of Mind  
Peace of Mind, Peace of Mind

Always reaching out for the help you need  
The way life takes you here this day  
Your happiness is all I seek  
But my time is running shorter than ahead  
And I hope you make it through safe and yet  
You will find peace of mind  
Like you never felt before  
That you thought you'd left behind  
You will find peace of mind  
That will open up the door  
That was always closed before  
Peace of Mind, Ohh Peace of Mind  
Peace of Mind, Peace of Mind

Tried to show you what was right or wrong  
Remember what the old man used to say  
You can find a rhyme, and you can sing along  
And I may get back to see you anyway  
So I say goodbye and meet another day  
You will find Peace of Mind  
Like you never felt before  
That you thought you'd left behind  
You will find Peace of Mind  
That will open up the door  
That was always closed before  
Peace of Mind, Peace of Mind  
Peace of Mind, Peace of Mind  
Peace of Mind, Peace of Mind  
Peace of Mind, Peace of Mind
