

Rascal Flatts, Better Now

If I had one call to make
I would dial yesterday
And warn myself
Tell my lips the words to say
And not let you just walk away
With someone else
With someone else

Next time I won't suffer this kind of pain
All my mistakes I just pass off for the blame
If you were here
We could figure this out
Then I wouldn't be bitter
I'd just be better now

To be this strong inside of one
A lot of good that has done
Yes you agree
No more trying to understand
Or fix these things because you can
Guess it's up to me
Yeah it's up to me

Next time I won't suffer this kind of pain
All my mistakes I just pass off for the blame
If you were here
We could figure this out
Then I wouldn't be bitter
I'd just be better now

Id be much better off
Much better off maybe
If I could just let it go
With no regrets left

Next time I won't suffer this kind of pain
All my mistakes I just pass off for the blame
You'd still be here
And we'd figure this out
Then I wouldn't be bitter
Then I wouldn't be bitter
I'd just be better now
