

# Rascal Flatts, It's Not Just Me&nbsp;

Tell me you've had trouble sleeping  
That you toss and turn from side to side  
That it's my face you've been seeing  
In your dreams at night

Tell me that you wake up crying  
And you're not sure exactly why  
Tell me that something is missing  
In your life, in your life baby

[Chorus]  
Tell me that you live for love  
That forever is never enough  
That you've waited all your life to see  
That you want so badly to believe  
Tell me that it's not just me

I could have sworn I saw you smile at me  
Standing in the pouring rain  
At a loss for words and running out of time  
I said this crazy thing (crazy thing), I said

[Repeat Chorus]

Hold me now and tell me that you do believe  
In a soul, a soul mate  
And tell me, and tell me, tell me

[Repeat Chorus]
