

# Rascal Flatts, Some Say

There's that star, the one they said we'd never reach  
And just close your eyes  
There's the missing moon, there's the Milky Way  
Heaven's straight ahead, we'll be there today  
Rainbows right and left, sunshine everywhere  
If it couldn't be baby, how did we get there

[Chorus]

Some say we'll never get it off the ground  
Some say we'll never make it out of town  
That someday we'll end up a world apart  
And some say we're a couple of crazy kids  
And some say that's exactly what they did  
And I say you got to go with your heart  
And baby, look where we are

There's that home, the one they said we'd never share  
And just close your eyes  
There's the picket fence, there's our mailbox,  
Puppy on the porch and roses up the walk  
Shinny minivan, kids in every seat  
Someday we'll look back and say it wasn't just a dream

[Repeat Chorus]

[Instrumental]

[Repeat Chorus]
