

Rascal Flatts, The Glory Of Life

Safe in the eye of the storm
Mercy and faith keep me warm
Oh the dreams I've seen tattered and torn
Just when I think I can't take anymore

You give me shelter and never will I be alone
Hold me closer and help me to find my way home
Cause its a long road through the darkest of nights
But your love won't let me lose sight
Of the glory of life

High is this mountain I climb
Deep is this river of time
The devils got trouble in mind
Sometimes I stumble
But you're there to remind me
Standing right there beside me

You give me shelter and never will I be alone
Hold me closer and help me to find my way home
Cause its a long road through the darkest of nights
But your love won't let me lose sight
Of the glory of life

This world has left me tangled up inside
No where left to hide
And the wind and rain
Is baring down on me
(Baring down, wearing down on me)

You give me shelter and never will I be alone
Hold me closer and help me to find my way home
Through the darkest of nights
But your love won't let me lose sight

You give me shelter and never will I be alone
Hold me closer and help me to find my way home
Cause its a long road through the darkest of nights
But your love won't let me lose sight
Of the glory of life
