This time last year you was cold but now your old and dead and fell off

and my name rings bells
When I?m here my don
My don u can?t pull em off

Loud ras they think that I talk a lot
Underground scene i?ll leave it cornered off

Eyes locked when I bop to the shop
Cause I?m a real don ain?t costing a lot

Kay Willz (Chorus)

We are gon burn the place down Down

Fire up flame on
Turn it up loud loud
Rude girl light em up

We running London town

Tempz

Hell living
And nah it won?t change and no u cannot relate
cah my world?s different and new day a new wave
and these fakes wanna hop on my page cah it?s well written.
Yeah basic no help given. Yeah that ape but it smells different
you know what it is me and scribz up in hell?s kitchen.
And we?re cooking up, with food for thought and plates to serve
stir it up mixing flames with words and you fools best duck when it sprays it burns.
Cos when I take a track it?s a wrap like a parcel
you might get lapped on a track in going past all
can?t be touched can?t with a rascal

Kay Willz (Chorus)

Merkz

Living that Real life

Real guy with a ill mind
My cup fill mine
Asap, Trill life

Drinking up
Whatever?s in my cup
and we live it up
Cos it feels right

Rip him up
If he?s Spitting tough
We?ll him up
Cos we guys

Physically or Mentally
We run the game (sound effect) a referee

Class 90 till the death of me
And I ain?t got energy
To think about my enemies
Especially when all they have for me is jealousy
But you can hate while I?m raising that temperature
We be putting in work while your resting up

Kay Willz (Chorus)
