Ratt, The Morning After

You think unkindly, simple not sane, know what I mean Say I'm deliberately sent here to please It's what you need, so I'm here tonight You won't confuse me with somebody else Look in your mirror, you're too good for yourself It's all in your books, your magazines, can't you see I'll be headin' out in time, if it's wrong or right

(Chorus)

I'll leave the morning after (repeat)

Say I'm in to somebody else, know what I mean I know you'll always think one of my kind You're on my mind, baby, all the time Lift your skirt, lady, high in the night I'm just what you need, won't you give it a try Don't put up a fight, it's gonna be alright, can't you see I'll be headin' out in time, if it's wrong or right

(Chorus)

Stay by my...

Solo

It's gonna be right, right out of the night When out of the night, now, it's gonna be right It's gonna be right, right out of the night When out of the night, can't you see

(Chorus)

I'll leave the morning, morning, morning, morning, morning, on and on

(Chorus)
