

# Raven, Fuel to the Fire

(DeMartini/Pearcy/Child)

I'm racin' through time  
You burn in my mind  
I'm a man with a mission  
I got a rocket in my pocket  
And nothin's gonna stop it  
'Cause you're my obsession  
Please wait for me, wait for me  
You're top secret, you're top secret  
I creep down the street  
My sensors seek your heat  
Covert operation  
You're a bomb that's tickin'  
I'm goin' down kickin'  
That's classified information  
Please wait for me, wait for me, wait for me  
\*I'm runnin', I'm hidin'  
You're top secret  
Your love is so excitin'  
I'm lyin', denyin'  
You're top secret  
And baby I'm dyin'  
I'm way in too deep  
There's no time to sleep  
And I'm hungry and thirsty  
It's like my finger's in a socket  
I need your love to shock it  
But time has no mercy  
Please wait for me, wait for me, wait for me  
\*CHORUS(2x)  
Please wait for me, wait for me, wait for me  
\*CHORUS
