

Raven, On the Wings of an Eagle

Trouble all around us every day
People gunning for us say we're in their way
They wanna try and stop us, bring us down
We got to pull together, each and every town
Listen, what I'm saying-you can take a hike
If you want to welcome in a new Third Reich
All those years
Don't the memories send a chill down your spine
Arguments, battle plans
You got yours-here's mine
Raise your hands-into battle
Raise your hands-into war
Raise your hands-the scene is set
Never forgive, never forget
Preachers, congress-censoring
Try to sell our freedom, it's a living sin
All those years
Don't the memories send a chill down your spine
Arguments, battle plans
You got yours-here's mine
Raise your hands-into battle
Raise your hands-into war
Raise your hands-the scene is set
Never forgive, never forget
All those years
Don't the memories send a chill down your spine
Arguments, battle plans
You got yours-here's mine
Raise your hands-into battle
Raise your hands-into war
Raise your hands-the scene is set
Never forgive
Raise your hands-into battle
Raise your hands-into war
Raise your hands-the scene is set
Never forgive, never forget
