

# Ravenscry, Oscillation

There's someone outside the window  
I can see her scary smile  
And i don't know why i'm paralyzed

"staring face outside my window"  
"can you tell me who you are?"  
I can only feel you're scaring me

With a creepy smile she's watching  
The reaction on my face  
And my blood is freezing in my veins

When you look at the other side  
The other side looks at you  
Two systems linked in this universe  
Turning 'till the end of time.

Feeling something so familiar  
Like a dusted old portrait  
"can you take your gaze away from me?"

Oh my god this is a mirror  
With another me inside  
Sending shiver's running through my spine

When you look at the other side  
The other side looks at you  
Two systems linked in this universe  
Turning 'till the end of time.

When you look from the other side  
The other side is in you  
Two different stars in a fractal sky  
Shinin' with a common light

- solo -

When you look to the other side  
The other side looks at you  
Two systems linked in this universe  
Turning 'till the end of time.

When you look from the other side  
The other side is in you  
Two different stars in a fractal sky  
Shinin' with a common light
