

Ray Boltz, Let's Begin Again

I can still remember
When we said our wedding vows
We gave the Lord our hearts and our home
But lately we've been so busy
It's changing us somehow
I wonder if that's why we feel alone

Chorus:

Let's begin again
Trust in Him and not our feelings
Let's leave the loneliness behind
Take my hand and then
We can find a new beginning
Let's begin again
While there's still time

Jesus made a promise
If two of us agree
The Father up above would hear our prayer
He is still the healer
Of hurting families
And there is hope as long as He is there

Repeat chorus twice
