

# Ray Charles, Moment To Moment

From moment to moment every moment that I live  
I live for every moment with you  
To see you, to touch you, to imagine this will be  
The moment when a dream comes true  
Just an ordinary day becomes adventure  
Such sweet adventure I never knew

And life will be rainbows as I learn the secret of  
The miracle that love can do  
From moment to moment with you

[Musical Interlude]

And life will be rainbows as I learn the secret of  
The miracle that love can do  
From moment to moment with you
