

Ray Price, Deep Water

I'm drifting into deep water I'm startin' to care for you
You're getting me in deep water be careful what you do
You wanna romance but I'm seeking love I know I'll regret it when it ends
I'm winding off in deep water why can't we just be friends
[fiddle - steel]
It's restless in this deep water I'm lost between right and wrong
My love is true as deep water your love won't last this long
Where will it lead me and where will it end I can't help but wish I only knew
I'm winding up in deep water so deep in love with you
