Ray Price, I've Just Destroyed The World

The sun just went behind the clouds there's darkness all around me now
For I've just destroyed the world I'm living in
I broke her so many times and now at last I've broken mine
I've just destroyed the world I'm living in
What made me think that I could go on hurting her
I should have known there'd have to be an end
But fools in love I thought by fate they never learn till it's too late
And I've just destroyed the world I'm living in
[steel - fiddle]
What made me think that I could go on hurting her...
