

Ray Price, Ice Cold Heart

Ice cold love your love is cold as ice cold
I wish I knew someone to love me like I love you
This morning when you went away I'm wondering dear if you're gonna stay away
I see a pretty rainbow it reminds me I love you so
I remember dear when your lips were warm as fire
You said you love me so but now it's awful cold the ice cold heart
[steel - fiddle]
This morning when you went away...
