

# Ray Price, Ice Cold Heart

Ice cold love your love is cold as ice cold  
I wish I knew someone to love me like I love you  
This morning when you went away I'm wondering dear if you're gonna stay away  
I see a pretty rainbow it reminds me I love you so  
I remember dear when your lips were warm as fire  
You said you love me so but now it's awful cold the ice cold heart  
[ steel - fiddle ]  
This morning when you went away...
