

Ray Price, Way To Free Myself

What strange power do you have that ruins this life of mine
That controls the hearts that's beating for you all the time
And if I could drive you from my heart a day or two
Then I'd find the way to free myself from you
I would find the way to free myself I know will
Then the very thought of you no more will cause a chill
And when I wake up to all the things you put me through
Then I'd find the way to free myself from you
[fiddle - steel]
I will find the way to free myself...
