

# Ray Price, You Done Me Wrong

Well you tell me that you care but now you're gone you got me cryin'  
No use denyin' you done me wrong  
If I could look inside your heart then maybe I would know the reason  
Why you are leavin' me all alone  
Well you know it's not so when you say it's not well you know you lie  
I didn't do one wrong thing to you won't you tell me baby  
Why you went and left me here so lonely I miss only for I love you  
[ fiddle - steel ]  
Did I ever make you sad so you be mad and love to hurt me  
And desert me for so long  
Well you're telling everyone what you done you think it's funny  
Well listen honey you done me wrong  
Well you know it's not so...  
[ piano ]  
Well you know it's not so...
