

# Razorlight, Stumble & Fall

I heard that it was a really big deal  
But then I found out it was just nothing at all  
You always say it's such a big deal  
But we both know that that's nothing at all  
And I get over the breaks  
And I, I stumble and fall  
And I get over the breaks  
And sometimes stumble and fall

You just wont admit that it's all in your hands  
So I have to try so hard to make you understand  
But all you can say is "It's just part of the deal";  
And I never asked you to understand  
How I keep myself to myself in the crush of the crowd  
But all you can say is  
"Who cares? It's part of the deal";

And I get over the breaks  
And I, I stumble and fall  
And I get over the breaks  
And sometimes stumble and fall

Well I, I get over the breaks  
And I stumble and fall  
And I get over the breaks  
And sometimes stumble and fall  
Yes I fall  
Yes I fall  
I stumble and fall
