

Rea Garvey, Walk With Me

There is no one who can save us now
We are lost in this craziness
There is no one here to show the way
But I'll protect us from this loneliness
I'm innocent, take my hand
You are the only one who understands
Come walk with me
Come walk with me
Barefoot through the sinking sand
You and me just hand in hand
Say we've got the strength to fight
Come walk with me
It's too late trying to preach the rules
But they're treating us like we were fools
Two lovers stand together now
And we'll overcome these fools somehow
I'm innocent, take my hand
You are the only one who understands me
Come walk with me
Come walk with me
Barefoot through the sinking sand
You and me just hand in hand
Say we've got the strength to fight
Come walk with me
Come walk with me
Oh yeah
I'm the innocence, take my hand
You are the only one who understands me
Come walk with me
Come walk with me
Barefoot through the sinking sand
You and me just hand in hand
Say we've got the strength to fight
Come walk with me
