

# Reagan Youth, Brave New World

Oh Brave New World  
That has such people in it  
How beautiful mankind is

Oh brave new world  
That has such robots in it  
How beautiful mankind is

I see a poofy alpha-plus  
I see an epsilon-minus  
Everybody in their place  
I take a soma holiday  
To be born without face  
Problems conveniently erased  
And the matter of sex and rotting play  
I take a soma holiday  
Is this utopia, the dream of mankind?  
Livin' your life on a factory line  
Is this utopia, dream of mankind?  
Livin' your life from nine to five

And the word was given,  
And Babylon was destined to fall,  
So hear the world and remember now...

Ending Is Better Than Mending,  
Ending Is Better Than Mending,  
Ending Is Better Than Mending,  
[whispered]  
ending is better than mending...
