

Realm, Turn Your World Around

you smile at me
every morning of this trail
but i just look straight ahead
i wish i could ease your pain

did somebody leave u here again
it's funny your up and after me
then baby my love could set you free

chorus :
i could turn your world around
i could turn your world around
and give you flowers in the park
dances from the heart
let you know it's love you found

we waisted words, weather and the news
and your love means nothing
lets talk about me and you
lets talk about me and you
lets talk about me

'cause i'd never leave you lonely
for me and my dreams the only one
so what if you treasure
rain for the sun

chorus :

well, i could show you somthing better
i know
i know
Somthing better you would never wanna let go
oh you would mabe let it flow oh oh

i could be waiting for you every night
with these arms i could be holding you tight

chorus - stadium

chorus x3
