

# Reamonn, Angels Fly

She saw the world through her smile  
When she held your hand you knew it'd be all right  
She spoke of places she'd never been  
&quot;Now is the time&quot;, she'd say, &quot;to live the dream&quot;  
And she told us how she could fly  
And she said &quot;no need for goodbyes&quot;  
For we'd see her there in the skies where angels  
fly Angels Fly  
She stayed a while that summers day  
Spoke through a smile of how she'd go away  
I saw in her eyes her pain  
She took my hand and said it'd be ok  
And now she's soaring up through the sky  
And she takes us all in her flight  
And she told us the reasons why Angels fly, Angels fly  
Some summer days I can see her smile  
In so many ways she's still alive  
And the love that she gave I keep down inside  
I'm keeping it safe 'til I learn to fly  
And she's soaring up through the sky  
And she takes us all in her flight  
And I feel she is still alive  
Where Angels Fly, Angels Fly  
And she told us how she could fly  
And she said no need for good byes  
For we'd see her there in the sky where Angels fly,  
Angels fly, Angels fly my sweet Angel Flies.
