

Reamonn, Flowers

She brought me flowers and then she'd say
Don't give me emotion cause I'll throw it away
She brought me flowers I heard her say
Don't give me emotion cause I'll throw I'll throw it away
Throwing it away
She's got the power to make me stay
I don't know if I like it but I just can't run away
She's got the power to make me stay I don't know if I like it
But I just can't, just can't run away
Just can't run away
And what I've learned- learned from this is- is that a kiss is just a kiss
And what I've learned- learned from her
Is that to love you gotta be who you are No
You can't just turn- turn away from who you are what you wanted to be
You gotta learn- learn to see that it not enough- enough for me
I want it all I want it all right or wrong right or wrong I want it all I want
it all
She brought me flowers just to say
She'd packed her bags she's leaving she's on her way
She brought me flowers and that's ok
Cause some things last forever and some things fade away
