

Reba McEntire, Don't Say Goodnight, Say Good

Thought we could make it on our own
Looks like we didn't get too far.
Love has found its way back home
Guess time just couldn't change the way we are
And that old feeling comes so easy
When your body's close to mine.
I think our crazy hearts have finally learned
There's always one more try.

Don't say goodnight
Say good morning
We can make it this time if we try
Don't say goodnight, say good morning
And in the morning, never say goodbye

The night is ours and we're alone
I know I've wasted too much time
Chasing rainbows I could never own
Now I've come back to make you mine
Don't let the morning come too early
Don't leave me here to face the day
Take me in your arms and never let me go
And don't let the feeling slip away

[Repeat Chorus]
