

Reba McEntire, I've Waited All My Life For You

(Jerry Foster/Bill Rice)

Don't you know
That you're the one
I'd like to live my life through
I can't see anyone with me but you

I want to go where you go
And share the things you do
For I've waited all my life for you
I've heard tales
That true love comes
Only once in a life time
And this time is the last time for me
For I just can't imagine
Being in love with someone new
Cuz I've waited all my life for you

So here it is
All the love
That I've saved for a lifetime
Never touched
Never crushed
And never used
And to think that I'd ever find you
It's impossible but true
Cuz I've waited all my life for you
Oh I just can't imagine
Being in love with someone new
Cuz I've waited all my life for you
