

# Reba McEntire, What Do You Know About Heartache

(Len Chiriacka, Mary Welch, Bob Morrison, Johnny Macrae)

You come to me just as a friend  
Cause you're looking for someone's shoulder you can cry on  
Well she broke your heart  
Now it's the end  
And you say that you've got an aching heart  
Like the world has never known

Chorus:

But baby what do you know about heartache  
What do you know about pain  
What do you know about the sleepless nights  
And walking alone in the rain  
What do you know about crying  
What do you know about being blue  
When you don't even know about the love I feel for you

You say I may not understand  
How it feels to see your love in the arms of another  
But you don't know the many times  
That I had to hide all my tears inside  
When I saw you with your lover

Repeat Chorus

When you don't even know about the love that I feel for you

Repeat Chorus
