

# Reba McEntire, You Lift Me Up To Heaven

(jim zerface, bob morrison, johnny macrae)

Been to colorado where the mountains touch the sky  
And I've done other things in life to lift my spirits high  
But nothing that I've ever tried to do  
Has taken me as high as loving you

Chorus:

Cause you lift me up, up, up, up to heaven  
When you gently lay me down  
You lift me up, up, up, up to heaven  
Yes you make my world go round

I never try to get away on daydreams anymore  
Love's taken me to places that I've never been before  
But if it's not heaven when you're holding me  
It's the way that heaven oughta be

Repeat chorus

And we never leave the ground  
Up, up, up, up to heaven  
Yes you make my world go round
