

Rebecca St. James, True Love

Chorus:

True love, talking 'bout true love
Gotta have real (God's) love
Whatcha gonna do?
True love

Love don't hate, love don't play those games with your mind
Love forgives and true love lives forever and all time
I'll never treat you like a stranger, turn my back in times of danger
Love don't act that way, I said love don't act that way

Chorus

Love is patient, love is kind, love won't let you down
It won't deceive, love will never keep the past around
Never worries, never lies, no, it never leaves you, never dies
Love don't act that way, I said love don't act that way
