

Rebecca St. James, Veggietales' Theme Song

Veggietales, veggietales, veggietales, veggietales

if you like to talk to tomatoes, if a squash can make you smile
if you like to waltz with potatoes up and down the produce isle

have we got a show for you...

Broccoli, celery, gotta be veggietales
lima beans, collard greens, peachy keen, veggietales

if you like to talk to tomatoes, if a squash can make you smile
if you like to waltz with potatoes up and down the produce isle

Broccoli, celery, gotta be veggietales
lima beans, collard greens, peachy keen veggietales
cauliflower, sweet and sour, half and hour, veggietales
broccoli, celery, gotta be veggietales

there's never ever been a show, never been a show like veggietales
there's never ever been a show, never been a show like veggietales
there's never ever been a show, never been a show like veggietales
there's never ever been a show, never been a show like veggietales
there's never ever been a show, never been a show like veggietales
there's never ever been a show, never been a show like veggietales
there's never ever been a show, never been a show, never been a show, never been a show, never been a show
there's never ever been a show, ever been a show, ever been a show, been a show never been a show

Veggietales

It's time for veggietales.....
