

Rebelution, On My Mind

You've got me screaming from the top of my lungs
Are you ever gonna give me some
I hope you come around in time
And everything will be just fine
I see that you got what I want
And I see that you got what I need
So come on baby, come and get with me
It seemed like yesterday the words were on the tip of my tongue
Now I feel like a rat in a cage girl you got me sprung because

Love, love, love is on my mind
Love, love, love is on my mind
Love, love, love is on my mind
Love, love, love is on my mind
Well you never even talk to me
I'm not a beggar but I'm down on my knees
If I ever get the courage to do
Half of the things I wanted to do to you
I saw you walking away in the distance girl
I saw you walking away in the distance now

It seemed like yesterday the words were on the tip of my tongue
Now I feel like a rat in a cage girl you got me sprung because

Love, love, love is on my mind
Love, love, love is on my mind
Love, love, love is on my mind
Love, love, love is on my mind
Is on my mind
