

# Rebelution, R Way

What an education, tell them how we tell it r way  
What a situation, tell them how we tell it r way  
You down with rebelution? Tell them how we tell it r way  
Who makes the rules everyday?  
I say we tell them how we tell it r way

I'm talking about intelligent design, cuz this should be the last sign  
You fool the people but the youth are on the rise, rebels on the prowl in disguise  
Unquestioned regulation my friend, patriots long been in the skies, looking over lies  
Let us fight, light the night  
Now think of children because their life's like a fragile mind  
Flip the hook, catch the bait, separate church and state

Oh at the end of their day, they lie awake in bed and thinking they're great  
Tomorrow comes and they'll regret what they say  
The youth ain't learning in the right way  
Oh at the end of their day, they lie awake in bed and thinking they're great  
Tomorrow comes and they will regret what they say  
The youth ain't learning in the right way

What a revelation oh how they say, but what an aggravation oh how I say  
Cuz you know they shouldn't be learning about that in school  
Well you say I'm the one, but I know who's the fool

What an education  
What a situation  
You down with Rebelution? Tell them how we tell it r way  
Who makes the rules everyday?  
I say we tell them how we tell it r way

I'm talking about intelligent design, cuz this should be the last sign

Oh at the end of their day, they lie awake in bed and thinking they're great  
Tomorrow comes and they will regret what they say  
The youth ain't learning in the right way  
Oh at the end of their day, they lie awake in bed and thinking they're great  
Those politicians well they say what they say  
But the youth ain't learning in the right way

What a revelation oh how they say, but what an aggravation oh how I say  
Cuz you know they shouldn't be learning about that in school  
Well you say I'm the one, but I know who's the fool
