

# Red Box, The Power Is Down

Holy Moses Israel  
When are you going to turn the light on?  
Boy oh boy the U.S. of A.  
Where are all the bold and angry?

What we have is a permanent dark  
The motor won't spark  
When the power is down  
What we have is a permanent freeze  
The motor will seize  
When the power is down  
Power is down  
Power is down

So low in the U.K.  
No more a guiding light to draw to  
No way, no way S.A.  
A power surge is crawling up your mainframe

What we have is a permanent dark  
The motor won't spark  
When the power is down  
What we have is a permanent freeze  
The motor will seize  
When the power is down  
Power is down  
Power is down

I'm listening for whispers amongst the shouts  
I'm searching for, I'm searching for  
I'm straining to find even one light house  
I'm on receive, on receive  
Don't know which half to be  
Don't know which half to believe

What we have is a permanent dark  
The motor won't spark  
When the power is down  
What we have is a permanent freeze  
The motor will seize  
When the power is down  
Power is down  
Power is down

And I'm never going back  
Last call, last call  
No, I'm never going back  
And I'm ready to pack
