

Red Car Wire, Kids In Love

Wishing on a thousand stars baby and I'm
Running my mouth cause you're so damn pretty.
Should I drive home? Its two in the morning.
Either way you know it, you know I'll be dreaming of
You, with me
and all the things you said to me like this:
"We're cool." and "Life's so good,
With you."
It's me, and you
We're all alone baby.
Sneaking out our windows, we're on
Top of the city
So make it happen, make your move
Tomorrow is waiting.
Every second that I'm with you I can
Feel my heart beating, every
Beat that it makes is like a new life breathing.
For the first time, love is a habit.
If your heart is a drug, i'm a downhill addict.
It's you that I would
Throw it all away for
One more night, like this drive.
I thought i was lost in the city
It was just your eyes.
Sharing secrets, share and tell.
Keep them, keep me.
You say them softly, I'll never tell.
Never tell, never tell.
All the words.
Trust me girl.
Keep them, keep me
