

Red Cell, Siamese Cell

I am the medicine
a chemical fuck
I am the parody
of my inequality
a feverish sky upon
my sterilised heartbeat
I, a two faced infection
one eats my perfection

don't talk don't turn don't try so much
the facts stretch far away
don't fear don't stare don't say too much
I'll rape my sleep tonight

I am the prostitute
for my own substitute
In and out of nowhere
to find any conviction
