

Red Elvises, All I Wanna Do

We were introduced at a party
Nice people were drinking champagne
Mariachis were singing their guts out
And I couldn't hear your name

I was so hungry for love
Or maybe just crazed of the night
You asked me if I wanted something
I had crazy thoughts on my mind

And I said
All I wanna do is make love to you
All I wanna do is make love
All I wanna do is make love to you
All I wanna do is make love

Voluptuous and sophisticated
If I had a long cigarette
Still sipping champagne from a bottle
You had crazy thoughts in your head

When you said
All I wanna do is make love to you
All I wanna do is make love
All I wanna do is make love to you
All I wanna do is make love

All I wanna do is make love to you
All I wanna do is make love
All I wanna do is make love to you
All I wanna do is make love

All I wanna do is make love to you
All I wanna do is make love
All I wanna do is make love to you
All I wanna do is make love
