

# Red Flag, Goodbye

It's such a long time from now til then  
It's such a long time when will I see you again  
I've waited too long, its here you belong  
It's a long time from now til then

Don't ever look back  
And never over your shoulder  
So if you travel all night  
You'll be here by light  
And say goodbye, goodbye, goodbye

It's such a long way from here to there  
It's such a long way from here to anywhere  
So beware of the light at the fringe of twilight  
You can get there or anywhere

Don't ever look back  
And never over your shoulder  
So if you travel all night  
You'll be here by light  
And say goodbye, goodbye, goodbye

Don't ever look back  
And never over your shoulder  
So if you travel all night  
You'll be here by light  
And say goodbye, goodbye, goodbye
