

Red Flag, Goodbye

It's such a long time from now til then
It's such a long time when will I see you again
I've waited too long, its here you belong
It's a long time from now til then

Don't ever look back
And never over your shoulder
So if you travel all night
You'll be here by light
And say goodbye, goodbye, goodbye

It's such a long way from here to there
It's such a long way from here to anywhere
So beware of the light at the fringe of twilight
You can get there or anywhere

Don't ever look back
And never over your shoulder
So if you travel all night
You'll be here by light
And say goodbye, goodbye, goodbye

Don't ever look back
And never over your shoulder
So if you travel all night
You'll be here by light
And say goodbye, goodbye, goodbye
