

# Red Hot Chili Peppers, Funny Face

It must have been your funny face  
It must have been your love  
Must have been your paper chase  
That wasn't quite enough

Must have been your tiny dance that  
Made me laugh out loud  
Must have been your angel dust that  
Put me on your cloud

You're the reason why  
You're the reason I

It must have been your love  
It must have been your love... I said

It must have been your love... in a little bit  
It must have been your love

It must have been your poppy eyes  
That made me step outside  
It must have been the sight of tears that  
Let me know I cried

It must have been your bunny shake  
It must have been your love  
A lot of girls won't come around they  
Treat me like a wolf

It must have been your love  
It must have been your love... I said  
It must have been your love... I gotta give it that  
It must have been your love

You're my angel, baby  
You're my darling  
You're my star  
Lo-lo-lo-lolita  
Let her see me deep in love

You're the reason why  
You're the reason I

It must have been your love  
It must have been your love  
It must have been your love  
It must have been your love

You're my angel baby  
You're my darling  
You're my star  
Lo-lo-lo-lolita  
Let her see me deep in love

Lopsided eyes and a crooked frown  
Make more of life, just settle down  
Every single little princess needs a crown  
Make more of life, just settle down

It must have been your love  
It must have been your love  
It must have been your love  
It must have been your love
