

# Red Hot Chili Peppers, Goodbye Angels

Suicide a month before I met you  
Deep regrets  
I never could forget you  
Somehow you made your way to my decade

My girl

In the sun I see you with your guard down  
Number one, you're moving to a hard town  
Do not dismiss the promise that you made me

My time

Overkill you took another red pill  
On the sheet is everything that you spilled  
We're the ones you want to know right now

Black light

Come again to murder your report card  
Just friend to kiss you in the court yard  
You are the one I want to be stuck with

Big fight

Favor some  
Way too young  
Slave to none  
Way too young  
Say goodbye my love  
I can see it in your soul  
Say goodbye my love  
Thought that I could make you whole

Let your lover sail  
Death was made to fail

Sticky fingers find the way to take her  
Crumple up another piece of paper  
I know your days are numbered when it comes to

This life

Slip away into the solar system  
Straighter rays  
You find a way to twist them  
Some like it dark and now I know where to

Find you

Serpentine I think she was an Aussie  
Bloody hell  
A common kamikaze  
Give up the ghost before you go under

Wonder

Kicking hard and looking for a rescue  
Watch me starve was never to impress you  
I would have killed the part of me to have you

Story

Say goodbye my love

Thought that I could make you whole

Let your lover sail

Death was made to fail
