

Red Hot Chili Peppers, Shoot Me a Smile

Swimming around
There's something new to be found
It's such a beautiful sound
Bare naked feet on the ground
Swimming around
And I will sing you a song always

A nautical mile
You be the sun to my dial
I'll be the rank in your file
Just come with me for a while
A nautical mile
And I will shoot you the breeze always

Flowers in bloom
I get 'em off of the moon
To make my baby go boom
I put my grease in your spoon
Flowers in bloom
And you're the colors of June
Some days

Here we come
We're not far away
And I'll tell you more
When I come to stay
Shoot me a smile
And I will show you the love always

Here we come
And we're very close
And I'll give you more
With this micro dose
Shoot me a smile
And I will show you the love always

Out on the road
I've got some cases to load
Some other places to go
Some other faces to know
Out on the road
Where I will show you the love parade

A lateral move
With nothing better to prove
Just hanging out with the crew
I'll put the wop in your doo
A lateral move
With nothing better to prove some days

Give me a home
I cannot make it alone
I need to share what I own
I'll be the cream in your cone
Give me a home
And I will show you the love always

Here we come
We're not far away
And I'll tell you more
When I come to stay
Shoot me a smile
And I will show you the love always

Here we come
And we're very close
And I'll give you more
With this micro dose
Shoot me a smile
And I will show you the love always

I don't ever wanna lose my head
Last name's Hot and my first name's Red

I don't ever wanna get so tight
Wearing it loose like a summer's night

Strappin' for cash
I'm eating bangers and mash
And I remember The Clash
And I remember The Clash
Strappin' for cash
But I will make you feel safe always

Bring it around
Just like the fox and the hound
Because it's openly crowned
I'm on a merry-go-round
Bring it around
And I will sleep with a smile always

I never began
Because I'm never to end
I'm gonna buck every trend
I'm gonna make you my friend
I never began
But I will give you a start always

Here we come
We're not far away
And I'll tell you more
When I come to stay
Shoot me a smile
And I will show you the love always

Here we come
And we're very close
And I'll give you more
With this micro dose
Shoot me a smile
And I will show you the love always
