## Red Hot Chili Peppers, The Velvet Glove

Close to my skin I'm falling in Someone who's been

Sittin' by the phone I'm left alone In another zone

John says to live above hell and My will is well

No one is waiting For me to fail and My will could sail, yeah

It's such a waste to be wasted
In the first place
I want to taste the taste of
Being face to face with common grace
To meditate on the warmest dream
And when I walk alone I listen
To our secret theme

Your solar eyes are like Nothing I have ever seen Somebody close That can see right through I'll take a fall and you know That I'll do anything I will for you

Sailin' for the sun 'cause there is one Knows where I'm from I care for you I really do, I really do

Come closer now So you can lie Right by my side

Sittin' alone in the sun I wrote a letter to you Gettin' over myself, yeah

Your solar eyes are like
Nothing I have ever seen
Somebody close
That can see right through
I'll take a fall and you know
That I'll do anything
I will for you
Your solar eyes are like
Nothing I have ever seen
Somebody close
That was made for you
I'll take a fall and you know
That I'll do anything
I will for you

Close to my skin Someone who's been I'm falling in Disasters are Just another star Fallin' in my yard

John says to live above hell My will is well

Long to be with Someone to tell I love your smell
