

# Red Hot Chili Peppers, Veronica

My name is Veronica  
I come from the South Side of Chicago  
Remember my raincoat  
We love you the same way, yeah

My life is a rope swing  
Always headin' back to  
From where I came  
Got no need to blame you

Danger  
Danger  
Everyone goes for a ride  
Danger  
Danger  
Everyone loses their mind

My name is Nebraska  
I live in a matchbox of Omaha  
It's nothin' fantastic  
We love you the same way, yeah

You call me Maria  
My life on the Northside of Miami  
I might come and see ya

Danger  
Danger  
Everyone goes for a ride (Let's go, my turn now)  
Danger (Say what?)  
Danger (Everyone)  
Everyone loses their mind (Don't cry)

My name is "I love you"  
I come from the same place as everyone  
Just lucky to be here  
We love you the same way, yeah

This heart is relentless  
I love you the most when you're down and out  
Please come to my senses  
'Cause we all play the same game

Danger  
Danger  
Everyone goes for a ride (Here we go, my turn)  
Danger (What's up?)  
Danger (Everyone)  
Everyone loses their mind

Been a long time now  
Been a long time now  
Been a long time since I took you my toll  
Been a long time now  
Been a long time now  
Been a long time since I took you my soul

I don't want it to be broken up  
I don't want it to be without love

Oh, this is the end  
My passionate friend  
My passionate friend  
Passin' on love for now

This is the end  
My passionate friend  
My passionate friend  
Yeah, yeah-yeah

(I don't) Been a long time now  
(Want it to be broken up) Been a long time now  
Been a long time since I took you my soul  
(I don't) Been a long time now  
(Want it to be without love) Been a long time now  
Been a long time  
Yeah
