

# Red Lorry Yellow Lorry, Big Stick

Big stick has got a 2-way smile  
Knock you up then knock you down inside  
Big stick coming down o you  
This is a place where nobody moves  
Falling down with you  
Falling down, oh yeah  
Big stick pounding in my head  
You dragged me up, now i'm out on the desk  
Big stick knock me to the ground  
You spend your time just putting me down  
Falling down with you  
Falling down, oh yeah  
It's up to me, up to me  
Not to let you bring me down so easily  
Big stick coming down on you  
This is the time when nobody moves  
Oh yeah, oh yeah
