

Red Lorry Yellow Lorry, Big Stick

Big stick has got a 2-way smile
Knock you up then knock you down inside
Big stick coming down o you
This is a place where nobody moves
Falling down with you
Falling down, oh yeah
Big stick pounding in my head
You dragged me up, now i'm out on the desk
Big stick knock me to the ground
You spend your time just putting me down
Falling down with you
Falling down, oh yeah
It's up to me, up to me
Not to let you bring me down so easily
Big stick coming down on you
This is the time when nobody moves
Oh yeah, oh yeah
