

Red Lorry Yellow Lorry, Happy To See Me

In your smile I could tell you were happy to see me
In your eyes I could tell you were happy to see me

I was running from a world so cold, I was on the other side
And oh if love could be an easy game, I'd be in your arms tonight

This is right, when you're down you look happy to see me
all along I could tell you were happy to see me

I was running from a world so cold, I was on the other side
And oh if love could be an easy game, I'd be in your arms tonight

In your eyes I could tell you were happy to see me
all along I could tell you were happy to see me

Happy to see me. Happy to see me.
