

Red Lorry Yellow Lorry, Shine A Light

Holding on inside
Straight to my head
This is no fast ride
This is life instead
Shine a light on me make it shine on dreams
All along you prouved me wrong,
You said I was a blame
See the way I turn my head and cry
It was just another day
All the things stood in our way
See the way you break me down inside
Shine a light on me, make it shine on dreams
When I fall I see it was only yesterday
